WHAT WORKING WITH CO-OPPETITION LOOKS LIKE

Four steps, *in order.*

Process before software, every time.

01

Listen

One conversation, 45 to 60 minutes, usually right after a season ends while the friction is still fresh. What broke, what got done by hand, what nobody wants to repeat.

02

Map the program year

Summer, after-school enrichment, extended care, and rentals, end to end. Who touches each record, and when.

03

Recommend

A written recommendation you own: get more from your current system, or a requirements list any vendor can answer.

04

Implement and hand over

A setup your team can run without calling us, documented so the next hire inherits it instead of rediscovering it.

SUMMER & YEAR-ROUND PROGRAMS

It starts with *one conversation.*

No obligation, and an honest answer about whether we can help. Link in the first comment.
